THE SKI CLUB OF SOUTH AFRICA

2017 : APPLICATION FOR MEMBERSHIP : 2017

(Note: An Application Deposit of R50.00 is payable upon Application for Membership – once accepted as a Member this R50.00 deposit is credited against the Entrance Fee due). PTO for further details.

I wish to become a member of the Ski Club of South Africa. If elected I will remit R _____ to cover the Entrance Fee (R _____) and the Annual Subscription (R _____) for the year _____. I will agree to abide by the Constitution and Rules of the Club and, should I wish to resign from membership, to formally notify the Honorary Secretary, in writing, to that effect. I furthermore confirm that I have read, and understand, the attached safety rules. By signing this document I also confirm that I know that winter sports can be a dangerous pastime and that I will participate entirely at my own risk and the Ski Club of South Africa will not be held liable for any injury to myself.

DATE: **DD / MM / YYYY** **Applicant's signature:** _____

Proposer: _____ Proposer's signature: _____

Secunder: _____ Secunder's signature: _____

(Please note that the Proposer must be a member of at least two years' standing, and that either the Proposer or the Secunder must be a current Club Committee member.)

Names of other Club members you know: _____

GENERAL INFORMATION (Please type or print clearly in block capitals.)

Surname: _____ Title: _____

First Name(s): _____

Postal Address: _____

_____ Postal Code: _____

Home Telephone: (_____) _____ Work Telephone: (_____) _____

Cell Phone: _____ Fax Number: (_____) _____

E-mail: _____ Occupation: _____

Previous skiing experience: _____

Number of previous visits to Matroosberg for: (a) Skiing _____ (b) Work Parties _____

Dates of work parties attended: _____

NB: APPLICANTS MUST ATTEND TWO WORK PARTIES BEFORE MEMBERSHIP CAN BE CONSIDERED. Please ensure that the Duty Officer records your presence (preferably by signing and dating the back of this form if possible) each time you attend a work party.

FOR CLUB USE ONLY

Application No.: _____ Date received: _____ No. on waiting list: _____ Date approved: _____

The Ski Club of South Africa (Matroosberg)

2017 : Procedure for Membership Application : 2017

1. Complete, and sign, the required 'Application for Membership' form (see enclosed). If you do not (as yet) know any existing Ski Club Members then please leave the 'Proposer' and 'Secunder' sections blank (you will get to meet Ski Club Members at your forthcoming work party weekends ... and will then be able to ask people to propose and second your membership application).
2. EFT the amount of **R50.00** (fifty rand) to: Bank – **Standard Bank of SA**, Branch – **Claremont Branch**, Account number – **270206175**, Account name – **The Ski Club of South Africa**, Reference – **Your Name** ... (this **Application Deposit** is to cover the initial costs of newsletters, mailings, etc – and will be credited back to your Membership Application entrance fee – once you are elected to Membership).
3. Return this completed 'Application for Membership' form ... together with proof of EFT payment ... to: **Email address** < ron@duffassoc.com > ... or 'snailmail' to **The Membership Officer, The Ski Club of South Africa, P O Box 26723, Hout Bay 7806**.
4. Your name will then be added to the list of **Prospective Members** and you will receive future copies of "**Piste Again**" (the Club's newsletter), together with any other relevant Ski Club correspondence, in order to keep you fully advised of any/all Ski Club activities.
5. **Before your Membership application can be considered you will be expected to complete a minimum of 2 x Work Party weekends on Matroosberg** (see "A brief history of the Ski Club of SA" below). NB: Work Parties are normally scheduled for the summer months.
6. In the meantime (once you have completed, and returned, an 'Application for Membership' form) you are invited to come and enjoy the Ski Club of South Africa's facilities on Matroosberg ... but only as a Visitor (and you will need to contact the relevant Duty Officer, for that weekend, who will nominate an existing Member to 'sign you in' for the weekend). **NB: Please note the attached Schedule of Visitor's Fees (and especially the discounted fees for those having completed at least 1 x Work Party)**. You might also be required to pay an entrance fee as a visitor to 'Matroosberg Reserve' (this fee payable at "Erfdeel" farm – Didi de Kock).
7. Once you've completed your mandatory **2 x Work Party** weekends (**NB: no charge for attendance at Work Parties – these are FREE !!!**), and assuming you have been formally 'proposed' and 'seconded', you will then be voted in as a Member of The Ski Club of South Africa. NB: You will then be required to pay the once-off **Entrance Fee**, the once-off cost of the **Book** ("75 Years : The Story Of The Ski Club of South Africa : 1930-2005"), plus a **Deposit** for a **Key** to fit all facilities on Matroosberg – and also your ongoing **Annual Subscription**. Also, should you require a **Ski Lift Attachment** (in order to be able to use the Club's ski lift facilities), a **Deposit** will be required (NB: the deposits paid for the Key and Ski Lift attachment will be refunded should you elect to resign your membership). Note: The **Annual Subscription**, etc is subject to review from time-to-time.
8. Once you have been elected as a Member, and paid your subscriptions, you will be issued with a 'Ski Club of South Africa' **Membership Permit**, together with a 'Ski Club of South Africa' window **Decal** for your car and your Matroosberg **Key** ... plus your copy of the **Book** ("75 Years : The Story Of The Ski Club Of South Africa : 1930-2005") ... and thereafter all further visits to Matroosberg are free (no charge).

A brief history of The Ski Club of South Africa

The Ski Club of South Africa was formed, in Cape Town, during the late-1920's and the Club formally constituted in 1930. Skiing in South Africa first commenced, in the Hex River Mountains, on Fonteintjesberg. Due to Fonteintjesberg being declared a water catchment area for Worcester, The Ski Club of South Africa subsequently re-located to Matroosberg. For many decades the only available accommodation was in a cave (below the position of the current Top Hut). A Base Hut was built in the 1930's and the current Top Hut (the main accommodation on Matroosberg) in the 1950's. The current Peak Hut was built in the early 1990's. Besides a separate Ski Equipment Hut, the Ski Club also has 2 permanently positioned, petrol-powered Ski Lifts (schlep-lift type) plus 2 portable Ski Lifts (that can be moved to any part of the mountain, i.e. wherever the best snow might lie!).

All facilities on Matroosberg (huts, toilets, ski lift motors and pylons, etc) have been carried up the mountain on the Members' backs (long before the existing 4x4 road was built), have been built by the Members and are still constantly maintained by the Members. The Club could not exist without ongoing maintenance work being contributed by the Members. **The tradition continues ... the only way to gain Membership of the Ski Club of South Africa is by you first attending 2 x scheduled Work Parties !!!**

We look forward to receiving your completed Membership Application form and to, very soon, welcoming you as a prospective Member of a very special Club.

The Ski Club of South Africa (Matroosberg)

2017 : Directions to the skiing grounds : 2017

- 1. Drive from Cape Town to Ceres.** The preferred (and shortest) route is to follow the M1 to the Wellington/Klapmuts turnoff, bleed left off the M1 and drive via Wellington, over Baineskloof Pass, cross the Breederivier, carry on over Mitchells Pass and into Ceres. An alternative route is via the M1, past Paarl, through DuToitskloof (Huguenot) Tunnel and turn off to Ceres (shortly before Worcester), then drive on to the Baineskloof/Ceres T-junction, turn right and continue over Mitchells Pass and into Ceres.
- 2. Drive straight through Ceres** and continue on the tarred road towards Touwsrivier (do not turn left to Prince Alfred Hamlet and the Kouebokkeveld). At the signpost to **Swaarmoed Pass/Lakenvleidam** turn right, and drive up and over the pass (tarred road) and past the dam (seen down in the valley to your right). Continue on this tarred road past “Klondyke” (the famous ‘cherry-picking’ farm).
- 3.** Just beyond “Klondyke”, turn right at the signpost to “**Matroosberg Reserve**” and “Erfdeel” farm (good dirt road). Drive on down into the valley and through the gates of “Erfdeel” farm (“Matroosberg Reserve”). The owners of the farm are André and Cora Smith. Please stop and say “Hi!” and indicate that you are a Ski Club member (or a prospective Ski Club member on your way to a work party). **Total distance from Cape Town to Matroosberg Reserve is approximately 200km (approximately 2 hours drive under normal conditions).**
- 4.** Turn left once past “Erfdeel” homestead, and then turn right onto the farm road, aiming in the general direction of the very obvious gully cut into the mountains directly ahead of you. You will drive past the sign saying “Ski Club Hut” (the Club’s Base Hut) and, shortly after crossing a stream, you will arrive at a very obvious (wide open) space on your left hand side. **The very faint-hearted stop and park here!**
- 5.** The road continues straight on up the gully ... and deteriorates with every metre travelled! The “**4x4 track**” branches off to the right (and is for 4x4 vehicles only ... and only with the farmers’ permission!). The Ski Club road continues straight on up the gully. It is possible to drive a normal passenger car to the end of the road ... but at your own risk ... this is not a road for the faint-hearted! If you decide to park your vehicle at any point please make sure you are parked off the road and that you will not obstruct any other vehicle coming through!
- 6.** The Ski Club road ends at an obvious large “Car Park” space (with a place to turn your car). The footpath to the Ski Club Main Hut continues straight up the gully, keeping to the right of the stream at all times. This path is easy to follow at all times (unless covered in snow!). **The walk from the Car Park to the Main Hut can take anything from 45 minutes to 2 hours (depending on your personal state of fitness, the load you are carrying ... and the prevailing snow conditions!).**

Basic requirements for a visit to Matroosberg.

- 1.** Remember that Matroosberg is the highest mountain peak in the Western Cape and is subject to often violent and unpredictable weather change. Always carry warm clothing (including a warm hat and gloves) and a windproof/waterproof jacket (with hood recommended).
- 2.** If you are sleeping overnight then you will need a good sleeping bag (full goose-down recommended). Besides your warm clothing (see point 1 above) you should also bring spare underwear, shirt/blouse and socks (in case your original ones get wet). A good and comfortable ruc-sac to carry all your goodies is recommended (carrying by hand is difficult).
- 3.** You will also need to bring all your own eating/drinking requirements, i.e: food, booze, plate, mug and cutlery (unless a kind Ski Club member has already promised to loan you some!). The Main Hut is equipped with electricity, electric kettles (for tea, coffee, gluhwein, etc) and a microwave oven (hooray for Woolworth’s range of delectable, microwavable dinners!). The Main Hut also has an effective pot-bellied fire/stove and running water, outside toilets, etc.
- 4. NB: You are expected to carry all your own rubbish (cans, bottles, paper, uneaten food, etc) down the mountain, with you, after your visit. There are NO rubbish disposal facilities on Matroosberg (this is a nature reserve area!).**
- 5.** Please contact the **Honorary Secretary, The Ski Club of South Africa** at email address < skiclubsa@gmail.com > for any further information.

The Ski Club of South Africa (Matroosberg)

2017 : Matroosberg (2,249m) : **Mountain Safety Rules** : 2017

Welcome to the Ski Club of South Africa. In order for you and family to fully enjoy the club and all it offers, and minimise risk to your lives while up on the mountain, please take 5 minutes to read this leaflet (put together by those who have been going up the mountain for many years). Due to its altitude (2,249m) the environment on Matroosberg can offer potential to harm (i.e: the altitude, the rapidly changing extremes of weather, the presence of ice ... something with which most South Africans are not familiar ...the mechanical Ski Lift equipment, etc ... and all of these combined with the activities of skiing and/or snowboarding, and, of course, an over indulgence of alcohol). If you add all of these together it could mean that you might have to need to be prepared for emergencies.

Some General Rules

Always:

- Keep an eye on the weather – it can change *very* quickly.
- Always keep your party together. Splitting the group, or heading off by oneself, is never a good idea.
- Stick to the paths and tracks – in poor visibility getting disorientated is very easy, even for experienced people in familiar areas.

Never:

- Set off in the dark or bad weather.
- Eat snow for water – your body uses more water melting the snow than is gained by drinking it.
- Walk alone.

Equipment to have with you:

- **Cellphone** with emergency numbers (see below). It's a good idea to turn your phone off to conserve the battery – just in case. Do you really want to be called whilst you are on Matroosberg ... anyway? Also, if you are lost, the tower it receives can help you (De Doorns – South side of the mountain, Prince Albert/Ceres – North side/Main Gulley, etc).
- **Emergency numbers:** [Metro Rescue 021 945 3378](tel:0219453378). [Duty Officers contact numbers are on the Main Hut wall](#)
- **Warm clothing** and at least a **waterproof jacket** – even when the weather is predicted to be fair
- **Whistle** - for drawing attention.
- **Compass** – will be useful in low visibility conditions. A GPS is also useful in the hands of a skilled operator.
- **Chocolate** or other high energy snack.

Places on Matroosberg which may be dangerous. (Please see the map in the Main Hut):

The path ... from the Ski Club road and car park ... up to the Main Hut is relatively safe, but there are a few places where getting lost (especially in the dark) can lead to difficulties.

- Once you cross the stream at the waterfall (on the way up), the path runs over rocks, and can be hard to follow (especially in the snow). If this happens, keep the electricity poles to your right hand side. This will help you follow the correct line.
- Also, along this section, the path can (in winter) be wet or frozen, and therefore slippery. Watch out! A twisted ankle (or worse) will make an unpleasant day for you and your party.
- Soon after this, you will come over a rise and see a small hut. This is a private hut and is not on the main path. The path to the Ski Club's Main Hut goes up and to the right, before turning right and heading straight uphill towards a cliff. There is a gap in the cliff known as the 'Chimney'.
- Above the Chimney, the path (when covered with snow) may also be tricky to follow. Do not follow the cliff edge, but aim for the tree tops (partially hidden behind the ridge). The Main Hut is situated there.
- Between the Main Hut and the Ski Equipment Hut is a large, flat rock slab. This can be very icy in winter. If there is deep snow, it can form a crust, which if you break through, can be tricky to get out of ... or you could hurt yourself falling. Stick to the path.
- Just before the Ski Equipment Hut there is a small stream with a bridge over it. Take care – it can be slippery and wobbly. Using it is still better than trying to cross elsewhere. Do not leave then path.

Other dangerous areas are:

- **Groothoekkloof** – near the 4x4 track parking area and Conical Peak. **Avoid going anywhere near the edge here. Snow and ice can be difficult to read. What looks like soft snow, can become hard and slippery without warning. Slipping here can have dire consequences. Rather take in the view from a very safe distance.**

- **Groothoekkloof – near Matroosberg peak and the Ski Club Peak Hut. The same cautions (as above) apply, but the additional danger, here, is that, in low visibility, you may come upon the cliff edge without warning. Avoid this area, unless you are very familiar with the mountain.**
- The Matroosberg peak area ... while not dangerous in itself ... lends itself to people easily getting lost and disorientated (especially in low visibility). This can (and has) happened to very experienced mountaineers. Keep to the track at all times. If you are caught in bad weather – descend. Do not, under any circumstances, take a 'short cut'. At the first sign of the weather turning, start heading down the mountain.
- The 4 x4 track is not dangerous ... but it is a much longer route than the foot path, and (if no vehicles have driven through) will be more likely to have deeper snow. So it is not the quickest way down. Provided there is already a trail cut through the snow ... follow the normal footpath track ... this is the quickest way down.
- There is no other easy or quick way off the mountain in order to get help. Always choose only the path down to 'Erfdeel' farm (or, if absolutely necessary, use the 4x4 track).
- If carrying a stretcher... and if it's not snowed in ... the 4x4 track is the easiest (but not the shortest) route.

Other dangers:

- **Hypothermia** – the cooling of the body's core temperature. It can happen in good conditions, if you are underdressed. Early symptoms are shivering, goose bumps, loss of hand co-ordination and shallow breathing. Advanced symptoms are apparent lack of co-ordination, blue lips, ears and fingers, and irrational behavior. A person in advanced stages may think they are recovering. To treat a patient, first insulate with blankets or jackets *and* then force them to drink warm, sweet liquids. The body needs the energy to warm up. Call an emergency number for more assistance.
- **Snakes** – not a problem in winter, but can be found in summer. Most will make their presence known, at which point, you should avoid them. The exception is the puff adder – it just lies there and waits to get stepped on. If you are bitten, remain calm, and try to remember what the snake looks like. Identifying the snake could save your life.
- **Scorpions** – found mostly under rocks. If you have to move a stone: flip it, then check it. Avoid putting your fingers in cracks. Check your boots before putting them on.
- **Rock falls** – most dangerous if you are on the lower section of the path in the early evening. If ... in the unlikely event you are caught in a rockfall ... run uphill (on the opposite side of the valley) and try to find a boulder behind which to shelter.

First Aid on the Mountain

- There are basic First Aid kits in the Main Hut. Please ensure you know where they are and what they contain. There is one kit with Medicines for minor ailments, one kit for Dressings for burns and major wounds and there is one special kit for Doctors or Paramedics only (please, if you remove anything from the kits, leave a clear note to this effect and inform the Duty Officer).
- There is a Stretcher in the kitchen, and Neck Braces under the seats with the First Aid Kits and, if at all in doubt (and if the patient is unconscious or unable/unwilling to move) please use these!
- Monitor Vital Signs and evacuate the casualty as soon as possible.
- In a serious (or life-threatening) situation ... and if the weather allows helicopter evacuation... call Metro on [021 945 3378](tel:0219453378) and explain the situation to them ... and advise that a helicopter is required.
- The Ski Club will, from time to time, offer Training on Mountain First Aid and Evacuation. Please try your best to attend these sessions. If you are a Docto... or have any First Aid training ... please do advise the Safety Officer on the Ski Club Committee.
- If in doubt (and in an Emergency) the current Health & Safety Officer for the Ski Club is **Guy Wood** (and you can call him on 082-305-5155 or ... for advice on medicines in the First Aid kits, call the Pharmacist on Duty (after hours) on 0834 HEALTH.
- For any/all major Trauma cases please call Metro on [021-945-3378](tel:0219453378) (or use whichever Emergency line your Cellphone provider offers, e.g. 112).

Hut Safety and Orientation

- Please familiarise yourself with the whereabouts of Fire Extinguishers and the Fire Blanket
- In the Dressings First Aid box is a large Burnshield Dressing for major burns. Please familiarise yourself with it as it is the only dressing to be used as a First Aid response to serious burns .
- Butane/Propane Gas Stoves are not allowed in the hut. Please use only paraffin, etc stoves.
- Please familiarise yourself with the Secret/Emergency Entrance (for emergency use only) into the Main Hut (i.e. under the floor of the Hut, entrance near back door), which can be used to enter the hut should you have problems with the lock/key on the front door).
- "Lights out" is determined by the Duty Officer. Over skiing weekends it is generally 10:00 pm (22h00).

- No smoking in hut. Also ... please don't burn plastic in the Stove in the Hut.
- Always clean your own kitchen area after preparing any food ... and always carry ALL your rubbish back down Matroosberg (to be disposed of at home !!!).
- No eating or drinking is allowed in the bunks.
- Please remember to divert the Hut water supply when leaving. The valve is situated out from the back door of the Hut ... approximately 5.0 metres on the left hand side of the path ... towards the Ski Equipment Hut.

The Ski Club of South Africa (Matroosberg)

2017 : Use of the Ski Lifts : Safety Rules : 2017

The Matroosberg Ski Lifts are, indeed, wonderful pieces of equipment ... but ... they have the potential to injure (or even kill) somebody. Please do minimise this risk, by following the simple instructions below.

1. Make sure you know the position of, and how to operate, the **Emergency Stop buttons**. They are positioned on every pylon, and at the Ski Lift Motor.
2. It is every skiers responsibility to be aware of other skiers getting into trouble on the Ski Lift !!!
3. **If you see an incident ... hit the Emergency Stop button immediately ... do not hesitate !!!**
4. Make sure that the rope (affixed to your Ski Lift Attachment) is of **the correct length**. There are many ideas of what that should be ... **5.5 metres** is what we have found to be an ideal length (after many years of trouble-free lift use of the Matroosberg ski lifts).
 - **If your attachment rope is too short:** You'll put enormous pressure on the cable and wheels ... possibly even damaging them by pulling the cable off the wheels.
 - **If your attachment rope is too long** (and if the snow is too high up the pylon): You will run the risk of your rope twisting around the cable ... with obvious results !!
5. Make sure that the rope (affixed to your Ski Lift Attachment) is of **the correct length**. There are many ideas of what that should be ... **5.5 metres** is what we have found to be an ideal length (after many years of trouble-free lift use of the Matroosberg ski lifts).
 - **If your rope twists around the cable or your attachments becomes stuck in the wheels:**
 - Do not try and pull it or yank it ... just move to the nearest emergency stop and stop the lift.
 - It is far better to stop the Ski Lift immediately ... rather than run the risk of damaging the cable or (worse still) pulling the pylons off the mountain !!!
6. Make sure your rope has no knots in it ... and that your attachment and belt is of the correct type.
7. Always keep the "nutcracker" out in front of you when going up the Lift. If it is released, and catches any clothing or inside a glove, you will be pulled up the mountain, with disastrous consequences.
8. If you see any damaged or worn parts of the Ski Lift... report this to the Duty Officer immediately.
9. Please take time to learn how to tension and de-tension the Lift. Also, how to start and restart motor.
10. **As with most things in the Ski Club, there are procedures to be followed before ... and at the end of ... each skiing session, i.e:**
11. Before skiing the Ski Lift cable must be tensioned.
12. After skiing (each day) the Ski Lift cable must be de-tensioned.
13. After skiing (each day) the motor must be run dry. This is to prevent sludge forming in the carburettor.
14. The Ski Lift motor battery must be taken down to the hut, and put on charge, at the end of each weekend. If this is not done the battery will be rendered useless and another R800 have to be spent (on a new battery) !!!
15. At the end of each weekend ... always check that the Ski Lift motor protective doors are securely shut... using what ever is available to secure these. The power of the wind in a storm has often ripped them open.

Make sure the unused fuel container is disconnected from the motor, tightly sealed and is put under cover, in the fuel dump, and that all the tools have been put back in the toolbox and returned to the security of the Ski Equipment Hut.

Always be cautious (the two most dangerous things on the mountain are carelessness and ego).

The Ski Club of South Africa (Matroosberg)

2017 : Schedule of Membership and Visitors Fees : 2017

(Correct for the 2016 Winter skiing season)

Membership : Adult Member (age 21 years +)			
<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Application Deposit	Payable upon Application – credited to Entrance Fee	Once-off only	R50.00
Entrance Fee	Payable upon acceptance as Member (less App Dep.)	Once-off only	R800.00
Ski Club History Book	Included in Entrance Fee	Once-off only	n/c
Key Deposit	Key to Huts, etc (refundable upon surrender of key)	Once-off only	R20.00
Lift Attachment Deposit	Ski Lift Attachment (refundable upon surrender)	Once-off only	R200.00
Annual Subscription	Payable every year – from 1st January	Per annum	R350.00

Membership : Junior Family Member (age 12 to 21 years)

(Note: Junior **Family** Members are Juniors with at least 1 x Parent as a paid-up Adult Member)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Application Deposit	Payable upon Application – credited to Entrance Fee	Once-off only	Nil
Entrance Fee	Payable upon acceptance as Member (less App Dep.)	Once-off only	Nil
Key Deposit	Key to Huts, etc (refundable upon surrender of key)	Once-off only	R20.00
Lift Attachment Deposit	Ski Lift Attachment (refundable upon surrender)	Once-off only	R200.00
Annual Subscription	Payable every year – from 1st January	Per annum	R175.00

Membership : Junior Member (age 12 to 21 years)

(Note: Junior Members are individual Juniors with no Parents as a paid-up Adult Member)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Application Deposit	Payable upon Application – credited to Entrance Fee	Once-off only	R50.00
Entrance Fee	Payable upon acceptance as Member (less App Dep.)	Once-off only	R400.00
Ski Club History Book	Payable upon acceptance as Member	Once-off only	n/c
Key Deposit	Key to Huts, etc (refundable upon surrender of key)	Once-off only	R15.00
Lift Attachment Deposit	Ski Lift Attachment (refundable upon surrender)	Once-off only	R200.00
Annual Subscription	Payable every year – from 1st January	Per annum	R175.00

Visitor : Adult Prospective Member (age 21 years +) with 1 x Work Party completed

(Note: Membership Application form submitted + minimum of 1 x Ski Club of SA Work Party completed)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Skiing Weekend	Any day with skiable snow and use of ski lifts.	Per day	R100.00
Non-Skiing Weekend	Any other day, but no use of ski lifts.	Per day	R50.00

Visitor : Junior Prospective Member (age 12 to 21 years) with 1 x Work Party completed

(Note: Membership Application form submitted + minimum of 1 x Ski Club of SA Work Party completed)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Skiing Weekend	Any day with skiable snow and use of ski lifts.	Per day	R50.00
Non-Skiing Weekend	Any other day, but no use of ski lifts.	Per day	R25.00

Visitor : Junior Family Visitor (age 6 to 12 years)

(Note: Children of paid-up Adult Members – too young to apply for Junior Membership)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Skiing Weekend	Any day with skiable snow and use of ski lifts.	Per day	R20.00
Non-Skiing Weekend	Any other day, but no use of ski lifts.	Per day	R10.00

Visitor : Adult Visitor (age 21 years +)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Skiing Weekend	Any day with skiable snow and use of ski lifts.	Per day	R200.00
Non-Skiing Weekend	Any other, but no use of ski lifts.	Per day	R100.00

Visitor : Junior Visitor (age 6 to 21 years)

<i>Fee</i>	<i>Description</i>	<i>Frequency</i>	<i>Amount</i>
Skiing Weekend	Any day with skiable snow and use of ski lifts.	Per day	R100.00
Non-Skiing Weekend	Any other day, but no use of ski lifts.	Per day	R50.00

Note: Please note that the **Ski Club of SA Member** responsible for bringing any **Visitor(s)** up Matroosberg, during the Winter skiing period, is **personally responsible for collecting Visitors' Fees** (as per the schedule herewith) **and for paying these Visitors' Fees to the appointed Duty Officer for that weekend.**

Note: Visitors (or anyone without a valid Ski Club Membership Card) will most likely be liable for payment of the **Entrance Fee to Matroosberg Reserve** (in addition to the Ski Club of SA Visitors' Fees !!!).
